Small Business Owner- 10 Years
President, North American Renewable Energy
Chairman Phoenix-Mesa Gateway Airport Authority
Captain, US Army
Life Member-National Rifle Association
Married to Susan Berman, President and CEO of Fresh Start Womens Foundation
Steve and Susan attend Central Christian Church

Berman Built a Better Gilbert and will Build a Better Future

We have the lowest taxes in Greater Phoenix, under my leadership we lowered them twice, I will do it again.

Under my leadership, we brought the largest Auto Mall in Arizona to Gilbert. It had four dealers when I left office, it still has four dealers, I will triple that number in the next four years

Under my leadership, we brought three world class hospitals to Gilbert. They are surrounded by vacant land, they should be surrounded by research facilities, suppliers and support facilities. I will make that happen.

San Tan Mall nearly ended up in Queen Creek, but we were able to prevent that. The San Tan Mall area was designated as the economic engine for the Town of Gilbert. It has freeway access and dramatically up graded infrastructure at every level. This is where our business's like Infusionsoft were to relocate when they outgrow their current facilities.

Instead the current Mayor and Council are allowing apartments to be built on our limited and most prized commercial property. I will never allow that to happen. I will develop the San Tan area into the business core that Gilbert deserves and needs. How do you know I can or will do these things? Look at what I have already done.
